Welcome to *Cat Chatter Magazine*. The cats have been busy in the studio putting together this sample of future editions. Honestly, there is no one better to talk about cats...than cats!

This Winter Edition 2023 is an introductory publication. It is free of charge. Future editions of *Cat Chatter Magazine* will be 6-8 pages in length and full of pawesome content. Proceeds help animals in need.

We look forward to seeing you in future editions. In the meantime, have a purrrrrfect day!

The scientific name for a domesticated cat is:

***Felis Catus***

I'm definitely  
in charge.

## JUST PUT IT BACK

Hi! I'm Ling. I'm part of the Paw Team here at Pets Write. Jasmine assigned me the Q & A column for future editions. For today, someone needs to hear this.

I feel like humans misunderstand our ways. They say us cats like to get into *their* stuff and mess things up. That's just not the case. The reality is, everything pretty much belongs to us. Most cats are okay with humans using what they need as long as they put things back afterward. I hope this helps.

"Did you know that cats have excellent hearing? We can hear high-pitched sounds better than humans and dogs. That is one of many reasons us felines **know** that our species is superior."  
~ Princess Jasmine, Editor

We have a lot planned!

- Future writing contests
- Q & A columns
- Healthy treat/food recipes
- Focus on feline rescues
- Small business features and much more!

### Language Of The Feline

Cats meow, purr, hiss, growl and use other vocal communication. They also use body language.  
*Are you listening?*

Meow.
